

### Horn Speaker (NT-806 HS)

The NT-806 HS is a professional-grade speaker designed for clear and powerful sound reproduction. With a 100W power rating and 110dB sensitivity, it delivers efficient, high-quality audio even at lower input levels. Its wide frequency response (150Hz–6kHz) ensures balanced mid-range performance, making it suitable for speech reinforcement, background music, and other audio applications.

Constructed from durable aluminum, the speaker is both lightweight (3.2kg) and compact (143×169mm), allowing for easy installation in various environments. Operating at 100V line voltage, it integrates seamlessly into professional audio systems.

#### TECHNICAL DATA SPECIFICATION

Model	NT-806 HS
Rated Power:	100W
Line voltage:	100V
Sensitivity:	110dB
Frequency Response:	150-6KHz
Dimension (mm):	143x169
Material:	Aluminium
Weight (kg):	3.2

KEY FEATURES

The NT-806 HS delivers 100W power with 110dB sensitivity, covering 150Hz–6kHz for clear audio, housed in a lightweight 3.2kg aluminum body (143×169mm) designed for 100V systems in professional installations.

QUICK GUIDE

This 100W professional speaker features 110dB sensitivity and 150Hz-6kHz frequency range in a lightweight aluminum casing (143×169mm, 3.2kg), designed for 100V line voltage systems - ideal for clear public address and background music applications.
