

Professional Speaker

NT-166PS

Professional Speaker (NT-166PS)

The NT-166 Professional AC Sound System is engineered to deliver high-performance audio for nightclubs, bars, and live entertainment venues. Built with premium 18mm birch plywood, its sturdy enclosure ensures durability while enhancing acoustic clarity. The system features advanced Neodymium (Nd) magnet drivers, including a powerful 15" woofer and a 3" tweeter, providing crisp highs and deep, punchy bass.

With a 650W power rating, an 8Ω impedance, and a wide frequency response (50Hz–20KHz), the LY-15 delivers robust, distortion-free sound even at high volumes. Its 98dB sensitivity ensures efficient power handling, making it ideal for large spaces. The compact yet powerful design (820x440x652mm) balances portability with professional-grade performance, catering to DJs, event organizers, and venue owners seeking reliable, high-impact sound reinforcement.

TECHNICAL DATA SPECIFICATION

Model	NT-166PS
Supply Power:	650W
Frequency Response:	50Hz–20KHz
Driver:	LF: 15"*1 (Nd)+ HF:3"*1 (Nd)
Input impedance:	8Ω
System sensitivity:	98dB
Dimension (mm):	820x440x652
Weight (kg):	/

KEY FEATURES

The NT-166 Professional Sound System delivers powerful, crystal-clear audio for clubs and live events. Its 15" Nd woofer and 3" Nd tweeter in a birch plywood cabinet produce deep bass and crisp highs. With 650W power, 50Hz-20KHz range, 98dB sensitivity, and 8Ω impedance, it offers loud, distortion-free sound in a portable 820x440x652mm design - perfect for DJs and venues needing reliable, high-impact performance.

QUICK GUIDE

The LY-15 Professional Sound System is ready to deliver powerful audio for any event—just connect to an amplifier via its 8Ω input, position the cabinet for optimal coverage, and adjust EQ settings to match your venue. For best performance, avoid clipping the amplifier and ensure proper ventilation. Ideal for DJs, live bands, and nightclubs needing loud, clear, and reliable sound.
